## **Guide to the Comprehensive Index for the Hosmer Oral Interviews, 1981-1986**

From 1981-1986, Charles Bridgham Hosmer, Jr. interviewed many of the prominent figures in the preservation field in the United States as part of a project for the Eastern National Park and Monument Association. The majority of these interviews have been authorized, by the interviewee, for use by researchers, but until now had not been indexed. The following document is a comprehensive index of the authorized interviews. A list of the available interviews follows this introduction. Manuscripts of the individual interviews are available for on-site use by researchers through the Archives and Manuscripts Department, University of Maryland Libraries, College Park.

### **Format of the index:**

This index is formatted following the Chicago Style guidelines for an “indented index.” The format is similar to an outline where there is a main topic heading followed by indented sub-topic headings. If a topic has both entries for the interviewee discussing the main topic and a list of sub-topics, the main topic entries will be listed first. The index includes people, cities, states, places, agencies, legislation, programs and general preservation topics.

#### Examples of formats:

Main heading

Interviewee name and page number

### **Some hints:**

#### For information on:

Specific cities: look up the city name

Specific National Parks or Sites: look under the Park or Site name

National Trust Historic Sites: look under the individual site name

#### Colonial Williamsburg:

For ease of indexing all entries have been sorted under the generic heading of "Colonial Williamsburg." This term covers activities of the Colonial Williamsburg, Inc., Colonial Williamsburg Restoration and Colonial Williamsburg Foundation.
