

## Course Reserves Link in ELMS

Instructions for adding a “Course Reserves” link to the left-hand menu of the ELMS course space that goes directly into Course Reserves:

1. Log into the course and click Control Panel.
2. Click Manage Course Menu on the bottom left.
3. Click [Add] Tool Link. The button looks like this:

4. In the Type drop-down box, select “Ares Course Reserves.”
5. In the Name field, enter “Course Reserves” (without quotation marks).
6. Click Submit.

NOTE: Students can always access course reserves by going to Course Tools and then clicking the Course Reserves link in that page. The above instructions are just to create a quicker way for students to access their course reserve readings.
