Note: The following files were in a box marked "Sylvia Kenney File" that was in a box marked "Walter Collins Files." They are, in fact, the files of Miriam Terry, who preceded Sylvia Kenney as CMS Secretary. The documents all had three holes punched in them, suggesting that they were originally assembled in a three-ring binder. Binder tabs separated the documents. The labels on the binder tabs provided the names for the file folders, but they often have very little to do with the contents.
