HOW TO FIND A BOOK

using the Library of Congress Call Number System

Call Number on book spine

1 Use the floor map by the elevators to find the section for your book. **Note:** **Stacks** (main collection) **Folios** (large books) and **Periodicals** (journals) are shelved in different areas of the floor.

2 Once you find KF look for 373 in numerical order on the shelf.

3 Now find S (the first letter of the author's last name) alphabetically.

4 Read this number as a decimal (the decimal point is before the letter), so .743 would be before .8.

5 Find the second part of the number, A3, in numerical order.

6 The year the book was published, organized chronologically.

7 Browse the shelf. You'll find other books on your topic right nearby.
