

# CONCEPT MAPPING

When coming up with a topic for a research paper, it can be hard to move from a general topic to a specific research focus or figure out which keywords to use to get the most helpful results. This is where the concept map comes in! Use related concepts and keywords to brainstorm helpful terms for your search. These terms can be helpful in thinking about where you want to focus your paper.

**DRAW AS MANY LEVELS AND CONNECTIONS AS YOU NEED.  
WHEN YOU ARE FINISHED, GO BACK AND HIGHLIGHT IMPORTANT WORDS TO USE IN YOUR SEARCH.**
