# HOW TO FIND A BOOK

## using the Library of Congress Call Number System

**Call Number on book spine**

**1** Use the floor map by the elevators to find the section for your book.  
**Note:** **Stacks** (main collection) **Folios** (large books) and **Periodicals** (journals) are shelved in different areas of the floor.

**2** Once you find KF look for 373 in numerical order on the shelf.

**3** Now find S (the first letter of the author's last name) alphabetically.

**4** Read this number as a decimal (the decimal point is before the letter), so .743 would be before .8.

**5** Find the second part of the number, A3, in numerical order.

**6** The year the book was published, organized chronologically.

**7** Browse the shelf. You'll find other books on your topic right nearby.
