Blaze Destroys 2 Maryland Agricultural Buildings.

LOSS MAY REACH $150,000

Plains Start in Garce, Get Beyond Centre, and Capital and Sensible Aid.

Two Hundred Students Lose Belongings, and Donors Have to Fire From Ball in Maryland Agricultural Buildings. The College's engineering building was saved, however, by the quick action of the firefighters.

Fire of unknown origin started in the basement of the Maryland Agricultural College, at College Park, Md., last night. The flames had done work not only on the buildings but also on the surrounding area. The cause of the fire remains under investigation.

Most of the livestock was saved because it was in one of the other buildings, and the students were warned to move to another part of the college. The fire started and then intensified.

The blaze was discovered by a group of Freshmen from one of the other buildings while they were moving to another part of the college. The Freshmen were able to alert the administration building and save the livestock, which was the original building of the college.

Donors Rush to Assist.

For the Phase of the fire that caused no destruction of buildings, and only a short time after the fire was discovered, a group of donors rushed to the college to provide assistance. The college's fundraising efforts were bolstered by the contributions of students and donors.

The college's fundraising efforts were bolstered by the contributions of students and donors. The college's fundraising efforts were bolstered by the contributions of students and donors.
